Leprechauns

Leprechauns are mythical Irish creatures. They look like little old men and they live in the forest.
Leprechauns are not very sociable, but they are quite intelligent.
Leprechauns enjoy Irish music and dancing. They are expert musicians: many of them play the violin or the Irish harp.
Leprechauns are shoemakers: their job is to repair the shoes of Irish fairies. The fairies pay the leprechauns for their work with golden coins. The leprechauns collect these golden coins in large pots and they hide their treasure very carefully! If you want to be rich, capture a leprechaun! But do not take your eyes off him or he will disappear!
